GTEP FIELD-BASED PROJECT/PRACTICUM PROJECT SITE ADMINISTRATOR CONSENT FORM

Each GTEP field-based project and reading practicum student must contact the administrator of the facility where the project/practicum is to be implemented. (In most cases, this is the principal at the project school.) The student will describe the proposed project and request the administrator's consent to implement the project at his/her facility (pending proposal approval by the student's instructor). This form must be completed by the student and the administrator and submitted as part of the application for an Applied Field Experience course.

A copy of this completed form must also be included with the proposal at a later date (see syllabus), so the student must keep a copy. [Note: If there is a change in project site between application and completion of the proposal, a new form must be completed and submitted prior to implementation.]

No names of students or school personnel will be included in the proposal or final report.

ROLE OF THE ADMINISTRATOR

- The administrative professional at the student's project site is asked to provide the student with some insights for identifying a critical problem in the classroom.
- This administrator acts as a facilitator to assist in clarifying the project through encouraging and supporting the student's critical approach to project design, implementation, and evaluation.
- The administrator assists with working out solutions to difficult implementation problems and provides the flexibility to access other professionals and/or the participants during the process.
- The administrator, along with the University instructor and the Applied Field Experience Administrator, is a support person for the student.

The instructor and/or the Applied Field Experience Administrator may contact the administrator after receiving the official assignment if he/she needs additional information. Reading practicum students may be observed by a University Supervisor.

The administrator is asked to grant permission for this supervisor or the instructor to make one or more observations, as needed, of the student implementing his/her project.

- The administrator is asked to observe the project implementation so that he/she can verify that the project took place. The administrator confirms that the project has taken place by completing the Administrator Verification Form at the end of the implementation of the project. The student will submit the verification form with his/her final report.

IMPORTANT: NOVA SOUTHEASTERN UNIVERSITY FINANCIAL LIABILITY AGREEMENT

I agree to pay all NSU charges pursuant to NSU policies. I understand that the university is advancing value to me in the form of educational services and that my right to register is expressly conditioned upon my agreement to pay institutional costs including, but not limited to, tuition, fees, housing, meal plan, and any additional costs, when those charges become due. I understand that NSU SharkLink and NSU email are the official means that the university will use to communicate with me. It is my responsibility to view my charges in NSU SharkLink or NSU eBill.
