PROFESSIONAL LICENSURE DISCLOSURE STATEMENT

This Disclosure is strictly limited to NSU’s determination of whether the **Bachelor of Science degree in Secondary Biology Education** (the “Program”), if successfully completed, would be sufficient to meet the educational licensure requirements in a State, as defined as 34 C.F.R. § 600.2. NSU cannot provide verification of an individual’s ability to meet licensure requirements unrelated to its educational programming.

This Disclosure does not provide any guarantee that any particular State licensure entity will approve or deny your application. Furthermore, this Disclosure does not account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made. Enrolled students and prospective students are strongly encouraged to contact their State’s licensure entity to review all licensure and certification requirements imposed by their State(s) of choice.

In accordance with 34 C.F.R. § 668.43, NSU has determined whether the Program satisfies State educational requirements for licensure as follows:

PROGRAM MEETS EDUCATIONAL REQUIREMENTS	PROGRAM DOES NOT MEET EDUCATIONAL REQUIREMENTS	CANNOT BE CONFIRMED IF PROGRAM MEETS EDUCATIONAL REQUIREMENTS
Florida*		<i>All States, the District of Columbia and the U.S. protectorates, as defined in 34 CFR §600.2**</i>

*NSU has determined, if students complete the required coursework, the Program satisfies Florida’s educational requirements for Biology (Grades 6-12) certificate. Graduates of the Program who pass all three Florida Teacher Certification Examinations (FTCE) will qualify for Professional Florida Educator’s Certificate. NSU cannot confirm whether the Program meets State educational requirements for other State licenses or certifications.

**State licensure or certification requirements can vary from state to state, depending on each State’s laws and regulations. The State licensure entities are responsible for overseeing the educational and non-educational requirements for licensure or certification for their State.

We encourage you to contact your applicable State licensure entities to familiarize yourself with the specific professional licensure or certification requirements of your State.
