

Tuition and Fees

University Student Services Fees must be paid in addition to tuition each term. The Student Services Fee is \$450 per semester for students enrolled in two or more courses, for a combined total of four or more credits, not to exceed \$1,350 per year. Students enrolled in a single course of three credit hours or less will pay \$225 per semester, not to exceed \$675 per year. Students taking quarterly programs will be adjusted to the same as those of semester students. The Student Services Fee will go towards the introduction of new programs and the enhancement of existing activities concerning health, safety, welfare, and technology services available to NSU students.

Tuition and fees are subject to change without notice.

Per NSU policy, bills are mailed to students the middle of every month. Students will receive a bill which shows any activity on the account or any balance due to NSU. Students with credit balances (usually deposits for future terms), also receive bills.

Please Note: Students should not wait to receive a statement before paying their tuition and fees because it may result in a late payment fee.

Following is a list of tuition rates effective July 1, 2018. Tuition rates are posted per credit hour unless otherwise noted. Students enrolled in Applied Dissertation Services pay per semester.
